

## Further Education Tutoring & Lecturing

We have an in-depth understanding of the Further Education sector, and this has been developed through our partnerships with Further Education & Sixth Form Colleges across the UK. In addition, some of our Consultants are seasoned professionals from the sector, with previous experience of working within the job roles they now recruit. We are also a contracted supplier to the Crescent Purchasing Consortium (CPC); a procurement group owned and run on behalf of the Further Education sector.

We operate across a range of curriculum programmes, fulfilling vacancies for subject specialists in both academic and vocational courses.

As student course demand inevitably fluctuates, the majority of our clients look for temporary recruits, endowing them with the flexibility to

identify solutions that will meet their specific needs. Where there is long-term demand, we also source permanent employees.

### **The key vacancies we cover are:**

- Tutors
- Lecturers
- Learner Support
