

## work - Based Learning

We have specialised in recruitment for the work-based learning sector for over 8 years, and have formed long-term partnerships with the UK's largest Training Providers and Colleges.

We recruit experienced and qualified work-based learning specialists across all course disciplines and vocational sectors. We are fully aware of the need for sector-competent professionals who are focused on retention, achievement rates, quality and targets. We work in consultative partnership with our clients, assisting them in meeting the demands and challenges of funding models by offering a range of employment solutions. These include sourcing and selecting niche permanent employees, as well as flexible, temporary workers.

We constantly evolve our service in response to the introduction of new work-based learning courses, funding changes and new training requirements

(such as PTLLS, CTLLS, DTLLS).
